INTRODUCTION

Language is part of human life. Language and people can not be separated. From the statement above, it means that language has important role and it is a prime medium in people's communication because by using language people can build an interaction with other. In other hands, communication needs language. Besides, people use language to express their feeling, ideas, opinions and their thought. As Brinton and Brinton (2010:2) states "Language give expression to our thought".

It means that language has function to express the feeling based on people thought. Their thought can be in written or spoken. Writing is more common use to express the feeling especially related to literature.

Literature can not be separated from the language. It caused of people usually use

language to make a literary work. It is human's expression about their life or experiences, which can be expressed either written or spoken. According to Podis in Amrulloh (2008:2) states "Literature is an art of form that generally means an imaginative writing from which the functional word is created". There are many examples of literary works, they are poem, short story, songs, novel and other. Based on that example song is a literary work which more understandable and more familiar in human's life. Quinn (2006:393) states "Song is a term for a type of lyric poem, not necessarily designed to be set to music. It means that song can be orally with music or without music.

As a part of literature, song can entertain the listeners by its music and is performed by singing. Song of course

consists of lyrics. Song lyric is an arrangement of beautiful, imaginative and meaningful word. It is usually used to express the feeling based on either the writer's or the other people's experiences. It also has a powerful emotion that gives impact in listeners' mind. The impact of song usually makes the listeners feel the story in the song as theirself story and the messages of song give the inspiration for them. Song writer usually creates song related to the love story, social, education and the philosophy of life and even the history of life. The song writer often creates the song either she or he is in pink or blue feeling.

Actually, song does not only consist of music and set of lyrics, but also moral value that give good impression to the listeners in order that the listeners does not only get or listen the song but also get something important in it. But, before the listeners know and understand about it all they must understand about the meaning because on the song consists of meaning that can be interpreted by people based on their understanding. There are some types of meaning . But, related to this study, each listeners have diferent understanding and they usually use their own understanding. Their understanding and interpreting of the story in song lyric is called contextual meaning. According to Suryawinata in Sugeng (2013:57) states “ Contextual meaning is meaning that arise from the situation or context where the phrase, sentence or expression are used. In understanding the lyrics, the listeners must understand a whole of the lyrics by finding out the clues. So, they must understand the lyrics based on the clue and sequences of the story of the song. It is also related to moral value in song which has meaning after listening the song, and also needs interpretation to understand the meaning of each line. Moral value is the term that tells about something related to good or bad people's behavior in life. It is supported by Mutmainnah (2014:52), “Moral values are standards of good and bad, which govern and individual's behaviour and choices”.

Simple Plan songs have moral values and which can be known by listeners, if the people pay attention to listen that song. But, the people get difficulty to understand what

By using qualitative method the researcher can observe, identify and get the result scientifically not in numerical data.

researchers systematically search and arrange their data in order to increase their understanding of the data and to enable them to present what they learned to others”. On other hand, data analysis is a way to manage the data and organize data into categories of basic analysis in order that the researcher can find the theory from the available data.

In analyze the data, the researcher does some steps, they are:

1. Classify the data that had been found and collected.
2. Describe the problem deal with the purpose of the study.
3. Analyze the data based on the theory.

Because his family just know him and think he is always alright but actually he is not good enough and they can not understand his heart. His family have hurt songwriter with their carelessness. He wants to show his faithfulness to her. he still waits her in the same situation at the first time he waits her.

Based on the explanation about this song lyric above, the contextual meaning of this lyric is about the songwriter’s imagination related to his regret of what has happened to him. He imagines that something bad never happen but actually in his real life, it is not like the perfect world in his imagination. It can be interpreted that the lie is so serious so that he lost his trust to his friend. here is the quotation about the explanation above :

**“But I was stupid
And you broke me down”**

The explanation above is supported by the additional quotation below, it shows in second line until third line in the second stanza :

**“That best friends can not be trusted,
And thank you for lying to me,”**

The meaning of “Thank You” in the quotation above is an insult for his friend that has lied. He says thank you because unconsciously he has realized that his friend not always honest. It can be expressed as the songwriter’s dissapointment of his friend.

The third stanza tells about the songwriter’s felling that hurt by his friend. It shows in the first line until fifth line on third stanza below :

From the explanation about this song lyric above, actually the contextual meaning of this song lyrics tells about the songwriter’s disappointment of his friend because his friend has lied to him. As the result, the songwriter considers that there is no honesty anymore in their friendship. But, it is too late for the songwriter to know the truth. And they tear them apart
'til everyone's the same
I've got no place to go
I've got no where to run
They love to watch me fall
They think they know it all"**

Based on the quotation above, "We" refers to songwriters of this song who have the same problem in life, "Their" refers to their parents, "Them" refers to the songwriters' dream and "It" refers to what the songwriter needs. In the fourth stanza, the songwriter prevents his parents to control and make him to be like what they want. Here is the quotation that support the explanation above :

**"We won't let them change
How we feel in our hearts
We're not gonna let them control us
We won't let them shove
All their thoughts in our heads
And we'll never be like them"**

Based on the quotation above, "Them" refers to his parents. From the quotation above, it means that songwriter's parents control and command him in order that he wants to do what they want. They also try change his thought to be like them. So, the song writer tries to prevent it all.

Then, sixth stanza tells about the condition where the songwriter feels tired with all of insult from people around him. It is shown in quotation below :

**"Now I'm sick of this waiting
So come on and take your shot
You can spit all your insults
But nothing you say is gonna change us
You can sit there and judge me
Say what you want to
We'll never let you in"**

In the quotation above "This Waiting" refers to the time when songwriter's hope about his parent judgement ends, "your shout" refers to his parent's judgement to make him down. From explanation above, it means that, songwriter feels tired with what they do to him. So, that he asks them to do what they want. The songwriters contend their parents to judge and insult him. Because he does not care about it anymore.

Based on the explanation about this lyric above, the contextual meaning of this song lyrics is about songwriter contends his parents who always control and over protective to him in order that songwriter will do everything based on their commands. Songwriter wants to prove the insult of people around him who consider that he is a trouble maker are wrong.

I guess we're all just too damn busy**

**And money's our first priority
It doesn't make sense to me”**

Based on the quotation above, “They” refers the parent who always dispute each other therefore their children feel uncomfot with the situation, “We” refers to songwriter and parents of this song. Based on the explanation above, the reason of the disputing each other is because they are so busy with their job. So, there is not enough time to spend the time with family. As the result their children are forgotten and ignored.

In the first stanza, songwriter feels bored with his life. He feels nothing special in everyday. It shows in quotation below :

**“I dont wanna wake up today
Cause everyday's the same
And I'd been waiting so long
For things to change
I'm sick of this town
Sick of my job
Sick of my friends 'cause everyone's jaded
Sick of this place, I wanna break free
I'm so frustrated, I just wanna”**

Based on the quotation above, “this change” refers to the new situation of his life in everyday. It means that the songwriter feels tired to spend the time of his life with the same thing and static. He feels bored with the situation and his friend. There is no something new in his life which make him feels frustated. Therefore he wants to do something that can help him forget his problem a while.

In the second stanza, he does something to refresh his mind. He does not care with all around him, he just wants to keep his mind calm down and persuades listeners to be the same as him by forgetting the problem happens. Let see the quotation below :

**“Jump! (Jump!)
Don't wanna think about tomorrow
(Jump!)
I just don't care tonight
I just wanna jump (Jump!)
Don't wanna think about my sorrow
Let's go
Forget your problems
I just wanna jump”**

Based on the quotation above, "Your problem" refers to the songwriter problems. So, from explanation above it means that songwriter tries to suggest himself so that he can forget and move his mind up for a while from the problem he gets. He does not care with what happens in his life. He realizes that he has a problem but he does not want to spend his time by only thinking of something make him feel painful.

Then, in the third stanza tells about the impact of song writer's boredom. He wants to out of from his responsibility. It is shown in third line until seventh line below:

It's all I need: one more day with you"**

Based on the quotation above, word "Everytime" refers to all of momment when songwriter with her, and sentence "It's like it all falls into place" refers to his memories when he and his girlfriend still together. give it all away"**

In the quotation above , word “It” refers to songwriter’s money, “there” refers to the town where the songwriter and his girlfriend visit together. From explanation above, it can be interpreted that they are in bad time or bad situation when he goes with her. But, it seems alright because he undergoes the day with his girlfriend. If he can turn back time, he will give all of they have to pay the bad moment before in order that it can be better.

Based on the explanation above, the contextual meaning of this lyric is about songwriter’s nostalgia when he is still with his girlfriend. He remembers all of the memories when they undergo the day together whatever happen and wherever they go which are make him so happy.
